SKILLS

- **Languages:** C++, C, Python, SQL
- **Frameworks:** FastAPI, HTML and CSS, NumPy, Pandas, Scikit-learn
- **Tools/Platforms:** PostgreSQL, MySQL, Git, GitHub, Ubuntu/Linux Commands
- **Soft Skills:** Problem-Solving, Team Player, Adaptability

INTERNSHIP

- **Unlox Academy | [Certificate](#)** Oct 2025 - Dec 2025
AI / ML Intern
 - Developed backend APIs using FastAPI for an AI-powered fitness platform
 - Designed backend modules for workout logging, diet planning and AI chatbot integration
 - Worked with PostgreSQL and SQLite databases for efficient data storage and retrieval
 - Applied AI/ML concepts to improve personalization and overall system usability**Tech Stack:** Python, FastAPI, PostgreSQL, SQLite, HTML, CSS, JavaScript
- **Infosys Springboard Internship 6.0 | [Certificate](#)** Aug 2025 - Oct 2025
Intern
 - Preprocessed meteorological datasets and engineered features for Fire Weather Index prediction
 - Developed regression models and evaluated performance using Scikit-learn
 - Built a Flask-based web application to visualize real-time fire-risk predictions**Tech Stack:** Python, Pandas, NumPy, Scikit-Learn, PCA, Ridge Regression, Flask, HTML/CSS

PROJECTS

- **CodeShelf – Full Stack Coding Knowledge & Revision Platform | [GitHub](#)** May 2026 - Jun 2026
 - Developed a full-stack coding knowledge management platform to organize coding concepts, interview notes, and programming solutions using an intelligent revision system.
 - Built responsive user interfaces and integrated frontend components with backend services using FastAPI-based REST APIs for seamless functionality.
 - Designed secure backend modules with PostgreSQL and JWT authentication while implementing AI-powered note summarization and offline revision support.
 - Followed modular development practices, integrated APIs, and used Git/GitHub for version control throughout the project.**Tech Stack:** Python, FastAPI, HTML, CSS, PostgreSQL, SQLAlchemy, JWT, Hugging Face API, Git, GitHub
- **SafeCrowd Vision — Unsupervised Crowd Density Segmentation | [GitHub](#)** Apr 2026 - May 2026
 - Built a real-time crowd analytics platform capable of processing large-scale visual datasets using a modular application architecture.
 - Developed efficient data processing pipelines and integrated machine learning models for crowd density analysis and risk segmentation.
 - Generated structured JSON reports and interactive dashboards using Streamlit for visualization and real-time monitoring.
 - Optimized backend processing and maintained project version control using Git for efficient development and collaboration.**Tech Stack:** Python, PyTorch, LWCC, DM-Count, OpenCV, Streamlit, Scikit-learn, XGBoost, Plotly, NumPy, Pandas, KMeans, GMM, DQN

CERTIFICATES

- Prompt Design in Vertex AI - Google Cloud | [Certificate](#) Oct 2025
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle | [Certificate](#) Sep 2025
- Artificial Intelligence Fundamentals - Infosys Springboard | [Certificate](#) Jun 2025

ACHIEVEMENTS

- **Achieved 95 percentile in Naukri Campus Young Turks 2025 and advanced to Round 2** Oct 2025
Ranked in the top performers nationally in a competitive aptitude and skills assessment.
- **Selected as a Contributor for GirlScript Summer of Code (GSSoC'25)** Sep 2025
Chosen among numerous applicants to contribute to open-source projects in the 2025 cohort

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.40** Aug 2023 - Present
- **Shiv Jyoti Public School** Jalandhar, Punjab
Intermediate; **Percentage: 77** Apr 2022 - Mar 2023
- **St. Francis Convent School** Kartarpur, Punjab
Matriculation; **Percentage: 91.8** Apr 2020 - Mar 2021
